MD. SOHANUR KARIM

Flutter Mobile Application Developer

PROFESSIONAL SUMMARY:

Seeking a challenging role as a Flutter developer to leverage my skills in building cross-platform mobile applications and contribute to innovative projects. Passionate about creating user-friendly, performant, and visually appealing apps that meet client and end-user needs

TECHNICAL SKILLS:

- | | |
|-----------------------|--|
| ✓ Flutter | ✓ Cross-platform app development |
| ✓ Dart | ✓ Firebase & Local Database (Shared Preference & Hive) |
| ✓ Git version control | ✓ State management (Provider, Bloc & GetX) |
| ✓ Responsive design | ✓ Third-party library integration |
| ✓ RESTful APIs | |

PROJECTS:

- E-Commerce (Food, Shopping, Grocery)**
Project-Description: All E-Commerce Apps Designed and developed a cross-platform e-commerce mobile app with user-friendly UI. Implemented features such as product listing, search, cart management, checkout, and order tracking. Integrated secure payment gateway and Firebase authentication for user login/registration. Used Firebase/REST API for real-time database and backend connectivity. Focused on performance optimization and smooth user experience.

Technologies: Dart | Flutter | Hive, Firebase | GetX | Git | API Integration | Payment Getaway(Bkash,Strive)| Google Map| Push Notification |
- Kotha (Chat APP)**
Project-Description: Built a cross-platform real-time chat app with one-to-one and group messaging. Integrated Firebase Authentication (email/phone/Google sign-in) for secure user login. Used Cloud Firestore for instant message sync and Firebase Cloud Messaging for push notifications. Implemented media sharing (images, files, voice notes) and typing/online status indicators. Applied GetX for state management and Git for version control.

Technologies: Dart | Flutter | Hive, Firebase | GetX | Git | API Integration | Push Notification |

- **News Apps**

Project-Description:

Developed a mobile news app that fetches and displays the latest articles from REST APIs. Implemented category-wise filtering, keyword search, and bookmarking features. Used Firebase for push notifications to deliver breaking news alerts. Managed app state with GetX and maintained version control with Git.
